

WELCOME TO PEVLINGS FARM RIDING & LIVERY STABLES

Due to the current corona virus situation we have some new procedures in place

When you arrive you will see lots of new notices on the gate

Please sanitise your hands and then wait for your instructor to call you in

Your horse will be tacked up ready for you and tied on the yard near the mounting block. The headcollar will stay on the horse, so just check your girth, pull down your stirrups and unclip the lead rope and lead your horse to the mounting block

Your instructor will guide you through the mounting procedure

A parent is allowed to help their child mount and adjust their stirrups and lead them in the lesson if necessary. Please wear suitable footwear

Your instructor will then take you to the riding arena and will sanitise her hands on the way in and again on the way out. Enjoy your lesson

After your lesson the instructor will take you back to the yard to dismount and then you will clip your horse back to the rope where you got him from. Say thank you and goodbye to your instructor, remembering to sanitise your hands on the way out
